Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/12/2007 has been entered.

Claim Objections

Claims 1-4 and 6 are objected to because the language of the claims is not believed to be sufficiently clear with respect to the nature of the optical tweezers. It is suggested to replace the phrase "optical tweezers" with -- holographic optical tweezers -- and the phrase "first base" with -- holographic first base -- in every occurrence.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

Art Unit: 2872

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Liesener J. et al.

Liesener discloses an apparatus for handling an object by using optical tweezers (Fig. 1), comprising: a light source (Ar+ laser in Fig. 1); a first base (LCD in Fig. 1) to produce a plurality of lights (i.e. from plurality of LCD pixels) as the optical tweezers with light emitted from the light source, wherein the plurality of lights is used as the optical tweezers (i.e. doughnuts filed); a projection optical system having a zoom function to form an image with the plurality of lights (line 8 to line 11 of 1st Col. In page 78); and a second base to hold a liquid including the object (the slide in Fig. 1) wherein the apparatus is configured such that the object is captured by the plurality of lights and the object moves as the plurality of lights move (second paragraph of the introduction).

Allowable Subject Matter

Art Unit: 2872

Subject to the claims objection, Claims 1-4 are allowable for at least the reason that the prior art fails to teach or reasonably suggest the second base having guide pattern formed thereon and being configured to hold a liquid including the object as set forth in the claimed combination.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fayez G. Assaf whose telephone number is (571) 272-2307. The examiner can normally be reached on 8-5 M-F.
